PROFESSIONAL EXPERIENCE

Software Development

Mar. 2022 - May.2022

Bench Bakery - Vancouver, BC

As a software development project, I develop an e-commerce app with front-end and back-end that allows a user to log in admin portal and manage the content of the app.

- Created 8 stored procedures in MySQL to operate CRUD systems
- Built 8 Rest APIs on Angular.
- Designed front-end and back-end screen with a user interface.

Front-end Development

Mar. 2022 - Jun.2022

UI / UX Designer Portfolio - Vancouver, BC

As a front end development project, I create UX/UI designer portfolio from branding to launch

- Implemented CMS on wordpress
- Open mind to listening to what the client demands for
- Time management to launch on time

Front-end Development

Dec.2021 - Mar.2022

Sprites&Selkies Daycare - Vancouver, BC

In a front-end development, I created the Sprites&Daycare website which is for 6 month - 6 years old children. The daycare is seeking new websites to get more contact from potential customers.

- The daycare sought for fantasy and mythology looking website. However, from the perspective of marketing, I propose the looking which match to the children's age as end user, and my client got satisfied my proposition.
- Implement CSS animation and jQuery to give impressive websites.

Public Relations Specialist

Jul.2021 - Apr.2013

Otani University - Kyoto, Japan

I was working in the planning and admission department. I was mainly in charge of public relations by communicating with team members and multiple stakeholders.

- In charge of production of school informational pamphlets including 120 pages
- Influencing people to keep the projects running smoothly.
